About us

Vortex – Projects is an industrial service provider with a large portfolio of reliable subcontractors.

The subcontractors are selected according to the scope and requirements of the client.

Our services

• Vortex facilitates contact between companies from the Benelux and Eastern European subcontractors
• The subcontractors are carefully screened
• Vortex guides the subcontractor regarding administration, social legislation, housing and logistics
• 1 contact person
Organisation

After defining the scope, the appropriate subcontractor is sought. Before the start of the works, the best fitting housing is rented. The works are continuously monitored and possibly adjusted.

Services

• Definition of the scope
• Selection of the subcontractor
• Drafting and negotiating the contract
• Housing for the subcontractor
• Logistics
• Monitoring of the project
